Hook & Pain

# 10-Second Hook

## Promise of Cost Savings

SoftRobot AI ERP offers a revolutionary solution to cut your and payroll costs by 90%. In just 10 minutes, we can show you how to save hundreds of thousands of dollars every year. This is not just a promise, it's a proven reality.

# Problem Legacy ERP Burn

01

## Legacy ERP Costs

Legacy ERP systems like SAP, Odoo, and D365 cost businesses a fortune. With annual licensing fees, data-entry operators, managers, trainers, and infrastructure costs, the total burn rate reaches \$600,000 per year.

02

## Wasted Resources

Shockingly, 70% of this budget is wasted on manual tasks such as data entry and form filling. This inefficiency is a major pain point for businesses looking to streamline operations and reduce costs.

02

| Solution & Proof

# SoftRobot AI Employees

## ERP and Agents

SoftRobot combines AI ERP with autonomous agents to create AI Employees. These virtual workers handle all tasks without human intervention, eliminating the need for data entry and training.

01

### Zero Salaries and 24/7 Operation

Our AI Employees work around the clock without salaries. They are always on, ensuring continuous operations and productivity. This results in significant cost savings and efficiency gains.

02

### Self-Improving System

SoftRobot's AI model learns and improves automatically. It adapts to changing business needs, ensuring that your operations remain optimized and up-to-date without additional effort.

# 0% Cost Drop Proof

## Comparison

are the legacy ERP of \$600,000 with SoftRobot's total cost of \$0. This dramatic reduction is achieved through licensing fees, minimal infrastructure, and reduced infrastructure costs.

## Immediate ROI

SoftRobot delivers a return on investment in under 30 days. The cost savings are immediate and substantial, making it a financially sound decision for any business.

## Detailed Breakdown

Licenses: \$0 (own the code), Payroll: \$40,000 (1 supervisor), Infrastructure: \$8,000 (cloud). This detailed breakdown shows how SoftRobot slashes costs while maintaining high performance.

## Financial Impact

The financial impact of switching to SoftRobot is profound. Businesses can reallocate saved funds to growth initiatives, innovation, or other critical areas, ensuring long-term success.

# Live Demo Leave Workflow

## 30-Second GIF Demo

Watch a 30-second GIF demonstrating a complete leave-approval workflow executed entirely by email. No apps, no menus, no human intervention required. This seamless automation showcases SoftRobot's capabilities.

03

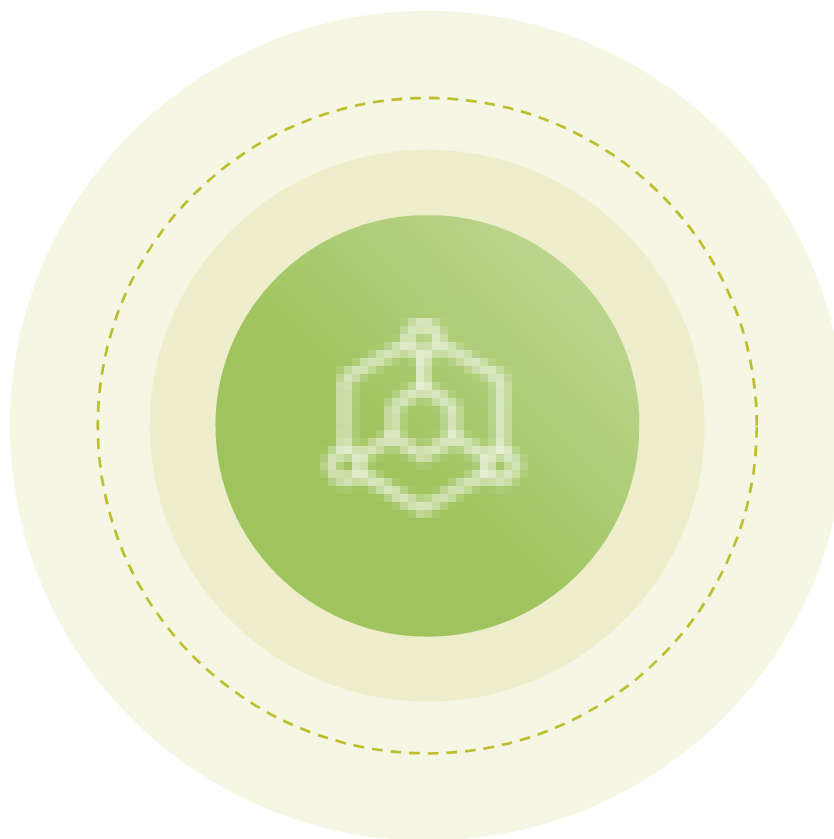

Market & Offer

# Who Wins Big Segments

## Multi-Entity Groups

Multi-entity groups struggle with multiple ERPs and large staff. SoftRobot consolidates these into a single AI brain, reducing complexity and costs while improving efficiency and coordination.

## IT/ERP Vendors and Start-ups

IT/ERP vendors face thin margins on legacy systems like SAP and Oracle. SoftRobot allows them to own a new product line and price it as the market leader. Start-ups and PE portfolios benefit from instant back-office automation, reducing burn rates.

# \$50k OEM Package

## Full Source Code and Copyright Transfer

For just \$50,000, you get full source code and copyright transfer. This means you own the technology and can customize it to your specific needs.

## White-Label Rights and Unlimited Users

With white-label rights, you can sell SoftRobot under your own brand. The package includes lifetime unlimited users and companies, making it a scalable solution for any business size.

## Comprehensive Support

The package also includes mobile and web servers, AI model service, and an optional 1-on-1 migration concierge service for a smooth transition to SoftRobot.

04

# Models & Guarantee

# Three Revenue Models

## License Model

Offer SoftRobot at \$10,000 per license. With 100 clients, you can generate \$1 million in annual recurring revenue. This model offers high margins and predictable income.

## SaaS Model

Offer SoftRobot as a SaaS solution at \$99 per user per month. With 1,000 users, you can generate \$1.2 million in annual recurring revenue. This model provides scalability and flexibility.

## Embed Model

Embed SoftRobot into your existing products or services to increase your valuation by up to three times in your next funding round. This model enhances your competitive edge and attracts investors.

## Diversified Revenue Streams

With these three revenue models, you can choose the one that best fits your business strategy or combine them for diversified income streams and maximum profitability.

# 7-Day Risk Reversal

## No-Risk Guarantee

We offer a 7-day risk reversal guarantee. If we can't automate at least one of your critical workflows within seven days, you pay nothing. This guarantee ensures your investment is risk-free.
