MOBILEERP

Only software required to Automate your complete business with AI today.

Leading	Working	Growing

Find out which employees are FREE and to whom you can load with work during a month. Also find Pending work hrs

Project Style Task sheet   Attendance / Leave   Delays and Status   Gantt Chart

AI Managers	**AI Employees**	**AI Directors**
Auto Delegation	Auto TODO List	Auto Reporting
Delegates & Monitors Work	*Executes Work TODO List*	*Monitors Processes & Delays*
Assign duties	Do Quality Work intime	Manage Change
Create Accountibility	No Training required	Encourage Innovation

What is MobileERP?.

MobileERP is a modern intelligent business automation platform designed to leverage existing IT assets in business workflows. MobileERPs unique informal approach enables business process owners to quickly build new workflows without waiting in line for expensive IT or development resources. Creating automation in MobileERP is simple. It is just like describing a conversation between your people and your systems, deciding baseline targets and checking performances.

ERP IS DEAD
Implement MobileERP AI Suite:

- **PRODUCT**
  Process driven, Menuless, Trainingless ERP=100% GTD

- **TECHNOLOGY**
  AI driven, Codeless, Programmerless=Fast ERP

- **SOLUTIONS**
  Go beyond ERP. Get rid of partial ERPs = 100% ERP

- **SERVICES**
  80% Automation 20% Cost = 100% ROI

- **CONSULTANCY**
  Industry4.0 ready automation.
  Implementing ISO, 6Sigma, PMI, BRC, PCMM, CMMi,
  Pharma Standards is more important then just ERP

- **IMPLEMENTATION=BEST_FIT_ERP:**
  Customized ERP for your industry as per Industry 4.0
  is more important then best practices

What products/service we offer in MobileERP AI Suite?.

What we offer : Our Products

ERPWEB.COM
Web 3.0 ready PC Version

Managerless ERP. TODO List based Get Things Done Fast.

MobileERP.in
Android ready Mobile Version

Menuless ERP. Your remote employee in field can operate.
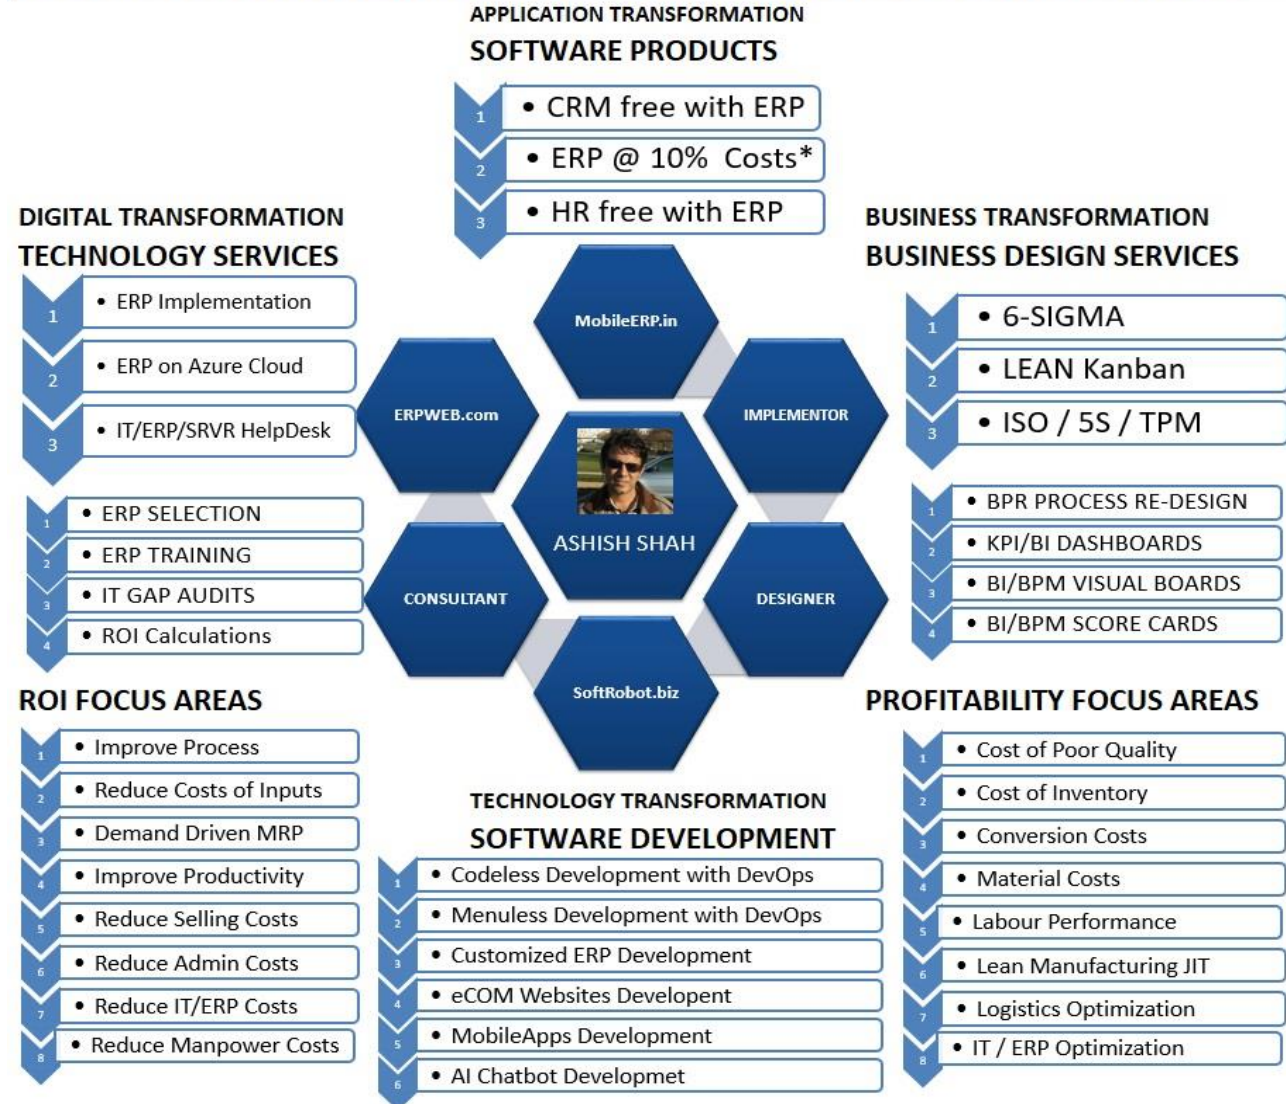

ChatbotERP.com
Chat based AI Version

Trainingless ERP. If you know how to chat, you can use ERP.

SoftRobot.biz
Codeless AI Programming Tools

Codeless AI ERP. Inhouse IT can modify ERP. Changes in minutes.

ROI FOCUSED WITH HANDHOLDING SUPPORT TILL RESULTS ARE ACHIEVED

APPLICATION TRANSFORMATION
SOFTWARE PRODUCTS
1. CRM free with ERP
2. ERP @ 10% Costs*
3. HR free with ERP

DIGITAL TRANSFORMATION
TECHNOLOGY SERVICES
1. ERP Implementation
2. ERP on Azure Cloud
3. IT/ERP/SRVR HelpDesk

1. ERP SELECTION
2. ERP TRAINING
3. IT GAP AUDITS
4. ROI Calculations

BUSINESS TRANSFORMATION
BUSINESS DESIGN SERVICES
1. 6-SIGMA
2. LEAN Kanban
3. ISO / 5S / TPM

1. BPR PROCESS RE-DESIGN
2. KPI/BI DASHBOARDS
3. BI/BPM VISUAL BOARDS
4. BI/BPM SCORE CARDS

ROI FOCUS AREAS
1. Improve Process
2. Reduce Costs of Inputs
3. Demand Driven MRP
4. Improve Productivity
5. Reduce Selling Costs
6. Reduce Admin Costs
7. Reduce IT/ERP Costs
8. Reduce Manpower Costs

TECHNOLOGY TRANSFORMATION
SOFTWARE DEVELOPMENT
1. Codeless Development with DevOps
2. Menuless Development with DevOps
3. Customized ERP Development
4. eCOM Websites Developent
5. MobileApps Development
6. AI Chatbot Developmet

PROFITABILITY FOCUS AREAS
1. Cost of Poor Quality
2. Cost of Inventory
3. Conversion Costs
4. Material Costs
5. Labour Performance
6. Lean Manufacturing JIT
7. Logistics Optimization
8. IT / ERP Optimization

Advantages of MobileERP AI Suite in Management Work Automation

Advantage of MobileERP AI Suite vs Standard ERP?.

What is MobileERP?. Why it will replace ERPs?.

ERP: Enterprise Resource Planning

- **Menu based:** People have to learn to find work and click on complex menus to do simple tasks in ERP. Menu Pollution makes it boring.

- **Costly Training Required:** ERPs need huge costly training from vendors and often employee find easy job elsewhere and your investment goes wasted or employees shows lots of resistance and ERP fails.

- **Inflexible, Partial & Non-integrated:** 44% Organizations say their ERP is inflexible non-integrated and partial. Cos using ERP buy CRM, PLM, HRM, eComm, Website, EIM etc. from others at huge cost resulting in complexity for company and users.

- **Costly NeverEnding Implementation and Customization:** 74% ERP implementation gets delayed and go over budget. Many ERP Implementation fails or in partial usage mode. You need costly vendor to do the complex job.

- **Partial Automation:** 92% still need to take manual action to share data between platforms and docs. Non-integrated emails, msoffice, autocads etc.

- **eCommerce and GST:** Most ERPs are not built to take advantage of online and eCommerce business operations. Company has to get eCommerce system developed separately outside ERP. Most ERPs do not support GST interface to government portal and have to buy 3rd party solutions for GST

MobileERP: Digital Business Process Automation

- **Process based:** Employee get their work in Todo list and they become more focused to work instead of searching forms and report in complex menus.

- **Zero Training. Start using from day 1:** Since Employees get clear direction without menus to search work via todo list, they start doing work as system shows delays if work is not done and their performance appraisal is updated in real-time.

- **Flexible, Scalable & Integrated:** MobileERP is codeless process based Flexible Apps which you can change when business changes. MobileERP comes with Integrated CRM, PLM, HRM, eCom, EIM, Website, POS etc. specific to your industry. One single software across organization makes life easy.

- **Agile Do-It-Yourself Implementation** with low cost customization: Codeless Process driven technology tries to imitate your real life business scenario as it is.

- **Full Automation:** Integrate your companies all information along with ERP Documents in process in one single window using ECM – Content Managers.

- **Built-in eCommerce, POS systems and GST** makes things easy to expand current brick and mortar business to internet business model without hiring bunch of sales staff, accountants and managers.

Advantages of new AI based MobileERP ChatbotERP

Shift from ERP to MobileERP ChatBotERP

#	Feature	ERP	CHATGPT	CHATBOTERP
1	WebInterface - Device/Platform Independent	No	Yes	Yes
2	Responds to Users in FAQ Format	No	Yes	Yes

Remember

Intelligent Automation Improves Business Outcomes and Simplifies Work

Your Employees are burdened with Too Many Steps; Too Many Apps. Simplify work for your employees to achieve productivity

Why MobileERP?.

1. **Better then Competitors, go beyound ERP. Basic ERP is outdated..**
2. **Customized for your industry is more important then best practices**
3. **ROI oriented Implementation Services assures 100% success**
4. **From Menu based to process based ERP = Trainingless Systems**
5. **80% Automation at 20% Cost is 100% ROI Digital Transformation**
6. **Implementing Standards is more important then just ERP**
7. **Achieve goals of management automation - Delegation & GTD - Getting things done**

THANK YOU
